

King Fahd University of Petroleum & Minerals
College of Computing and Mathematics

SWE216: Software Requirements Engineering (231)
Assignment # 2, Due Saturday, Oct 7th, 2023

Submission Guidelines

- Submission is **individual**.
 - Clearly put your name and student ID in the submission.
 - **Only PDF format is accepted.**
-

Q1) Come up with **an idea** for a **novel mobile application** in **the healthcare domain to help nurses do their jobs effectively**. Provide a **name** for your mobile application.

Q2) Write a **vision statement** for your mobile application (using the template provided in the slides).

Q3) Create a **rich picture** for your mobile application. The rich picture should incorporate the perspectives and viewpoints of all stakeholders involved in the mobile app.

Ps: You may use an AI text-to-image generator (e.g., Picsart). However, make sure to reference it.
